Dr. Thomas Cowan MD On How They "Isolate Viruses"
facebook.com/groups/the.truth.network
Why Many Don't Buy the Theory That Viruses CAUSE Disease
facebook.com/groups/the.truth.network
The problem is with HOW virologists do lab work...
Virologists take samples of stuff (like snot) from a sick patient. Then...
They add it to monkey, cow or even aborted baby cells. Then...
They starve and poison the cell mixture. Then...
They see cells dying and take still life photos with an electron microscope and conclude that a virus killed

Sensitivity - Normal (BBFC 12)

"The Flu" isn't a transmissable pathogenic illness, it is like saying the trees are spreading a virus that makes their leaves wither and fall off when in reality it is just Autumn and the trees change mode as a reaction to the environment drastically changing. Our bodies react in the same way, millions of peoples bodies do this at the same time over the backend and Winter, nothing is been spread. What does happen is our bodies are exposed to toxins and these accumulate over the months and when the Summer turns to Autumn and then Winter there is less light, less heat, less air pressure and our bodies panic and then start to flush the body

— Donald J Trump, August 21st, 2021

"I hope everyone remembers when they're getting the COVID-19 Vaccine, that if I wasn't President, you wouldn't be getting that beautiful 'shot' for 5 years, at best, and probably wouldn't be getting it at all. I hope everyone remembers!"

— Donald J Trump, February 28th 2021

"I would recommend it and I would recommend it to a lot of people that don't want to get it and a lot of those people voted for me, frankly."

— Donald J Trump, March 16th 2021

"We have our freedoms and we have to live by that, and I agree with that also. But it is a great vaccine. It is a safe vaccine, and it is something that works."

— Donald J Trump, March 17th 2021

"Get those shots everyone!"

— Donald J Trump, December 17th 2020

“I guess in a certain way, I’m the father of the vaccine because I was the one that pushed it. To get it done in less than nine months was a miracle.”

— Donald J Trump, April 29th 2021

"Everybody, go get your shot."

— Donald J Trump, February 28th 2021

"It works incredibly well. 95%, maybe even more than that...and it is really saving our country and it is saving frankly

and for all. These vaccines are also very safe."

— Donald J Trump, December 11th 2020

"The Vaccine and the Vaccine rollout are getting the best of reviews. Moving along really well. Get those shots everyone!"

— Donald J Trump, December 17th 2020

"Well, I got the Pfizer, and I would have been very happy with any of them. I thought a very bad statement was when they did a pause on Johnson & Johnson. I think that frightened a lot of people. That was a bad thing to do. At that time, when they did the pause, they had six people that may have had some difficulty out of millions that received it. But I think the pause was a very bad thing to do."

— Donald J Trump, October 2nd 2021

"During my administration, everybody wanted the vaccine. There was nobody saying oh, gee, I don't want to take it. Now they say that. And that's because they don't trust the Biden administration. I can think of no other reason. But they say we don't want it, we aren't going to take it. When I was there, everybody wanted it and we were doing great. Well, the military did a fantastic job."

— Donald J Trump, October 7th 2021

"I'm very proud of the vaccine, I've taken it, you've probably taken it. But I'm very proud of it. I think we could have another situation with the Spanish Flu, 1917, where up to 100 million people were killed."

— Donald J Trump, August 18th 2021
